

1 you asked, the last question which I can answer, the
2 answer is no, county governments have to remain intact.

3 With respect to transfer of powers or something
4 like that, the General Assembly could if it wanted to,
5 if it wanted to do so, could say, take operation of
6 transit, the transit facilities or something like that,
7 give it to a transit authority.

8 Of course, as I say, the General Assembly
9 could permit a referendum if they wanted to do this.

10 THE CHAIRMAN: If Delegate Moser will still
11 yield to a question, the Chair will recognize Delegate
12 Schloeder to put the question.

13 DELEGATE SCHLOEDER: Thank you. I asked this
14 question before I guess. I think you have too, Mr. Chair-
15 man. I am still troubled by the definition that Chairman
16 Moser gives of government. He talked in his earlier
17 speaking against the amendment that a three-man elected
18 commission, say a sanitary commission or transit com-
19 mission, would come under his definition of government.
20 It just seems we may be talking about two different
21 things.
